The Ranger Project
Athabasca Basin, Saskatchewan

The Ranger project is located 25 kilometres east of the McArthur River mine, 30 kilometers south of the Cigar Lake mine, and 9 kilometres west of the West Bear uranium and cobalt deposit. The project comprises six claims covering 15,619 hectares with a vertical depth to the unconformity between 71 and 223 metres.

Directors

Leigh Curyer, *Chairman*

Potential

- Horizon covers 30 kilometres of multiple, northeast-trending magnetic low areas with depths to the unconformity between 80 and 335 metres
- Historical drilling results in the western claim block suggest 20 metres of unconformity topography between historical drill holes PK-001 and PK-005 associated with a prominent magnetic break and EM conductors
- Located near existing infrastructure with Highway 905 and powerlines within 17 kilometres of the project

Next Steps

- DC-Resistivity surveying to map sandstone alteration and basement structure
- Drill test areas of structural complexity

Ranger Claim Summary

Claim	Hectares	Effective Date	Annual Assessment	Expiry Date
MC00014097	814	June 19, 2020	$12,214	Sept. 17, 2022
MC00014101	2,032	June 19, 2020	$30,478	Sept. 17, 2022
MC00014120	5,256	June 19, 2020	$78,847	Sept. 17, 2022
MC00014099	4,492	June 19, 2020	$67,380	Sept. 17, 2022
MC00013583	1,169	Jan. 30, 2020	$17,532	Apr. 30, 2023
MC00013902	1,856	May 05, 2020	$27,841	Aug. 03, 2022
Total	**15,620**		**$234,293**	

Historical Work

1960's: Gulf Minerals Company Ltd.

- Airborne radiometric surveying and diamond drilling

1970's: Noranda Exploration Ltd., and Asamera Oil Ltd.

- Ground VLF-EM and airborne radiometric surveying, and diamond drilling

1980's: Noranda Exploration Ltd., Agip Canada Ltd., and SMDC

- Diamond drilling and radiometric prospecting

1990's: Cameco Corp.

- DC-resistivity and magnetic surveying, diamond drilling
- Drill hole PK-005 intersected structural zone from 81 to 107 metres

2000's: Denison Mines and JNR Resources

- Diamond drilling and airborne electromagnetic surveying

2010's: Strateco Resources

- Diamond drilling
- Drill hole NW-14-01 and NW-14-02 totalled 402 metres
