The work crew was 24 (with 17 from Cree Nation of Mistissini and 2 from regional First Nations).

2024 – a non impact-causing work program that included 1) ground-based magnetic, VLF-EM, and ANT (ambient noise tomography) geophysical surveys, and 2) a biogeochemical survey on black spruce trees collecting 600 samples. The work crew was 11 (with 7 from Cree Nation of Mistissini).
